

Leaders in Residential and Commercial Cabinetry

Prestigious Residential Cabinetry

Founded in 1998, Spectra Lifestyle was established as Nathan's Cabinets, a family owned and operated business. Over 20 years later, the business has been rebranded as Spectra Lifestyle and is one of WA's leading manufacturers of residential cabinetry.

Since our beginning, by working alongside Perth's most reputable builders we have completed over 20,000 projects. We work with design and architect firms of the highest quality to help plan and manufacture solutions that are unique and creative to your needs.

Spectra Lifestyle has a strong reputation for excellence, innovation, and short turnaround times. In most cases, we offer same day bench-top and cabinetry installations.

We are committed to delivering the highest quality possible 100% of the time, for every client.

Our Belief

Beyond our commitment to providing a superior product and exceptional customer service, Spectra Lifestyle has an emphasis on core beliefs, which we believe speak directly to our customers.

Custom Cabinetry Builds

Each project is custom-built, carefully considered and beautifully crafted. With the advantage of a wide range of services available, there's a creation to suit every style and interior need.

Premium quality and workmanship are just the beginning of any Spectra Lifestyle creation.

Highest specifications, European hardware and industry approved materials are used throughout, offering enduring quality, while state-of-the-art contemporary design assures style at every angle.

We are a one stop shop for design, manufacture, install and after-care service with absolute convenience to you.

Our Promise

Our mission, values, and traits have defined our success helping us to become a trusted name. Continually integrating our core beliefs into our design, cabinet manufacturing and delivery capacities has differentiated us from competition and helped us provide exceptional products and service to our customers.

“Listening to our clients needs and designing the perfect space is a journey we can make easy for you. Whether it’s a new kitchen fitout, a bathroom makeover or creating a functional alfresco area, we can design and deliver the perfect space for you and your family.”
